Shalom Orlando (Jewish Federation of Greater Orlando and Jewish Community Center of Greater Orlando)

The Shalom Orlando Maitland Jewish Campus serves the Orlando area through its campus partners; The Jewish Community Center (Fitness, Child/Youth Educational School services, hosts numerous community events and summer programs); Jewish Academy of Orlando (educating K-5 students, hosting religious services and various school related programming); Holocaust Memorial Resource and Educational Center (maintains Jewish Holocaust historical antiquities, educational-informative interactive displays, lectures, educational forums and hosts guest speaking engagements); and several other sports/child enrichment private organizations.

Facility Mission

To support Jewish life in Central Florida through the provision of programming and financial support of Jewish organizations that educate, advocate and connect Jewish community.

Background

This project is an acknowledgement of vulnerabilities that exist for uninhibited access to school and youth classrooms. The project seeks to create limited-access control for each individual classroom so that if initial buffer zones are breeched, classrooms remain individual safe spaces. This project is targeted to mitigate the identified vulnerability to active threats. This project is subsidized through the FEMA **FY2021 Non-Profit Security Grant Program (NSGP-UA)**. This funding and expenditure is **time restrictive** for award of contract, acquisition of material/equipment, labor type and completion to functioning system.

Solicitation

This solicitation is a 'Request for Proposal' (RFP) for the delivery, installation, programming of (35) access card readers and accompanying door strikes. The installation process must include integration of the onsite Honeywell access-control system. Additionally, programming must be completed into existing WinPak SE access-control management software. PLEASE NOTE that ALL systems must be tested for comprehensive broadcast coverage over entire campus grounds/facilities.

Objectives

To complete the on-going campus-wide application of facility structure hardening and emergency readiness; to thwart active-threat impacts through the establishment of limited-access doorways, portals, and classrooms. By establishing multi-layered buffer zones, threats will be extremely limited in movement minimizing their potential impact.

Scope of Design and Labor

There is a requirement to acquire access-control readers/strikes that are compatible with the existing Honeywell access-control system. Additionally, there is a requirement to meet the latest industry standards of compliance from the Department of Homeland Security (DHS) with regard to security technology and limitations of brands/foreign distributors. All equipment, materials and workmanship must be warranted and serviceable by the installing subcontractor or certified service agent for the manufacturer. Proper installation is critical to the effectiveness of these systems; therefore, installation must meet industry standards and be warranted as well.

Implementation of project

Phases

- Request For Proposal (RFP)
- Quote/Bid – Request
- Submission of Selected Sub-Contractor to FL. Dept. of Emergency Management for Award of Contract
- Project targeted start date.
- Proposed timeline, deliverables, installation, system integration & testing (**to be Included in bid proposal**)

Project Requirements

- List of Equipment/functions
 - Access-Control Reader (35)
 - Access-Control Door Strikes (35)
 - Power Supply for each door (35)
 - Wiring to Access-Control Panel/s
 - Addition of Panel/s if onsite Panels are filled
 - Testing of all systems and integration to existing/new control panels
- Subcontractor Requirements
 - Honeywell Certified Integrator
 - Be registered in SAM.gov (System for Award Management) – Federal approved Contractor

- Subcontractor Requirements (cont'd)

-Must Certify that the prospective subcontractor is free from; Debarment, Suspension, Ineligibility and Voluntary Exclusion or Disqualification from participation in this transaction by an Federal Dept. or Agency
